

Peace & Justice Center of Eastern Maine presents

Health, Money and Fear

a film about our Health Care System

why does it cost so much?
what does it say about us?
what can we do about it?

Watch as Dr. Paul Hochfeld, an experienced emergency room physician, and several other knowledgeable medical professionals diagnose the U.S. health care system as sick, broken and in dire need of repair. These experts reveal the complex contributing factors that have led to a costly system that cares more about profits than efficient, quality health care, and also recommend the prescription for a cure.

Wednesday, July 29th at 7:00 PM

At the Peace & Justice Center, 170 Park St, Bangor

All Are Welcome! Free admission!

Discussion to follow film, which runs about 47 minutes
