# WHO'S GOT THE POWER?

## SUNDAY, FEBRUARY 28

Who's Got The Power, a forceful, new documentary film, addresses head on the reality of global warming, caused by the **burning of fossil fuels, coal, oil and gas, and its attendant dangers in the form of carbon dioxide emissions** and presents genuine and workable solutions. **From the vantage points of world-renowned scientists, environmental activists, physicians, financial advisers, designers, builders, coal miners and others,** the global warming debate unfolds. In addition, inner city and suburban consumers in America, Germany and Japan share their personal experiences with solar-powered housing.
